STATE ST. STORES TO BE PROBED BY CITY COUNCIL COMMITTEE

**Report That Stores Maintain Hospital Wards Leads to
Investigation—Mandel Bros. Still Trying to Put
Over Sub-Basement Ordinance—Dr. Young
Denounces the Plan**

An investigation into the report that the State street department stores, or at least some of them, maintain wards in several hospitals where persons either injured or become ill in the stores are taken will be made by the subcommittee of the council committee on buildings.

This report will be probed before the building committee offers any recommendation on the ordinance to allow sub-basements, which Mandel Brothers are now trying to slip over in the council.

There is also another ordinance before the council to prohibit sub-basements. This last proposal has the support of Health Commissioner Young and other medical authorities.

Just how the aldermen on the building committee regard the attempt of Mandel Brothers and their counsel, Major Tolman, pal of Bob Redfield, representative of Big Business, has not been learned. Ald. Pretzel, Pettkoske and Ray are on the sub-committee chosen to investigate conditions at Mandel's.
